

International Webinar on Explanatory Sequential Mixed Methods Research October 20-22, 2020 via ZOOM Teleconferencing

A mixed methods research design fit for researchers leaning towards quantitative research, the Explanatory Sequential Mixed Methods Research design consists of two distinct and sequential phases: an initial quantitative phase wherein quantitative data is collected and analyzed followed through by a qualitative phase which data explain the statistical results by exploring participants' views thoroughly. The rationale for mixing and integrating the quantitative and qualitative methods is grounded in the fact that such emergent research design allows for a more robust analysis of a research problem; taking advantage of the strengths of each design. With growing attention to research methodologies such as the mixed methods research, how can one design a study which employs the strength of both qualitative and quantitative research specifically the Sequential Explanatory Mixed Methods Research design?

As part of the **2022-2033 Mixed Methods Research Webinar Series**, the **Asian Society of Teachers for Research Inc** holds the **International Webinar on Sequential Explanatory Mixed Methods Research** on **October 20-22, 2022 (October 20,22: 1:00-5:00 pm; October 21: 9:00-5:00 pm, Philippine Standard Time)** with our Resource Speakers, **Dr. Alexander S. Acosta** of the *Philippine School Doha*, **Dr. Imee C. Acosta** of the *Virginia Commonwealth University Qatar*, and **Dr. Genaro V. Japos** of the *Philippine Association of Institutions for Research, Inc.*

OBJECTIVES OF THE WEBINAR:

1. To apply a research design that focuses on convergence of quantitative and qualitative data specifically the Sequential Explanatory Mixed Methods Research;
2. To determine research areas that have potential for Sequential Explanatory Mixed Methods Research; and,
3. To write the Sequential Explanatory Mixed Methods Research in the Methods section of research.
