

## Factor Analysis with Reliability Statistics for Scale Development (with Applications in JASP Software)

August 29-30, 2025

Via Zoom Teleconferencing

Enhance your research capabilities and ensure the scientific rigor of your work with our upcoming training workshop, **"Factor Analysis with Reliability Statistics for Scale Development (with Applications in JASP Software)."** This intensive workshop is designed to equip researchers with the essential skills for creating and validating robust research instruments.

The training will provide hands-on experience with the user-friendly, open-source software **JASP**. Participants will learn to apply powerful statistical methods that help you understand the structure of your data and confirm the consistency of your measurements.

The International Association of Multidisciplinary Research, Inc. (IAMRI) with SEC Registration No. CN201964450 is inviting you to participate in the training workshop on **"Factor Analysis with Reliability Statistics for Scale Development (with Applications in JASP Software)."** on August 29-30, 2025, via Zoom Teleconferencing.

The program will be conducted and facilitated by **Dr. John Vianne B. Murcia - Australia Awards 2018 Scholar for Predictive Analytics - Curtin University** and Vice-President for Research and Planning, Jose Maria College Foundation, Inc.

The objectives are to:

1. To introduce the basics of factor analysis for scale development;
2. To apply factor analysis and reliability tests using JASP software; and
3. To interpret results for refining research instrument.

### Confirmation and Contact Details

For interested participants, please register [here](#). The deadline for the submission of the confirmation will be on August 20, 2025 (Wednesday). For more details, you can also contact us at +63917-703-9331 (mobile).

### Training Fee:

2,500.00 Php – includes Training Certificate (Certificate of Research Engagement, Certificate of Completion, and Certificate of Attendance - soft copy).

### Payment Details
