

TRENDS IN PEER REVIEW OF SCIENTIFIC PUBLICATIONS

March 22-24, 2023

MetroCentre Hotel & Convention Center, Tagbilaran City, Bohol

A scientific researcher stands at the bar of two judges - the peer reviewers, whose judgment endorses the paper for final review; and the editorial board who serves as an oversight to do the final judgment for inclusion in the current volume for publication. A researcher who is trained as a peer reviewer can visualize what the actual peer reviewers will be looking into the paper. So, it matters that when you write, you are also complying with what the reviewers will require of you. This situation is a strategic advantage for your paper to get a better chance of hurdling the peer review process.

The International Association of Scholarly Publishers, Editors and Reviewers (IASPER) with the SEC Registration No. CN201433407 is inviting you to participate in the training-workshop on **Trends in Peer Review of Scientific Publications** on **March 22-24, 2023** at the **MetroCentre Hotel & Convention Center, Tagbilaran City, Bohol, Philippines**.
